SKILLS

- **Business Analysis:** Requirement Gathering, Process Mapping (As-Is/To-Be), User Acceptance Testing (UAT), SOP Documentation
- **Business Systems:** Odoo Implementation, Workflow Configuration (Sales, Inventory, Accounting), Process Automation
- **Data Analytics:** Excel, Python (Pandas, NumPy), Data Cleaning
- **Core Strengths:** Stakeholder Alignment, Structured Problem Solving, Cross-Functional Collaboration, Business Process Optimization, Gap Analysis & Reporting

Experience

Odoo Consultant

Aug 2025 – Present

Target Integration, Gurugram

- Supported end-to-end ERP implementations across Sales, Inventory, and Accounting functions by gathering business requirements, conducting process analysis, and documenting As-Is/To-Be workflows to support system configuration and process improvement initiatives.
- Collaborated with cross-functional business stakeholders to translate operational requirements into system configurations, ensuring alignment with process objectives.
- Managed cleansing and migration of 10,000+ master and transactional records, improving data accuracy and enabling reliable financial and operational reporting.
- Facilitated multiple User Acceptance Testing (UAT) cycles, identifying functional gaps and resolving configuration issues prior to go-live.
- Contributed to identifying process inefficiencies and recommending system-driven improvements to enhance operational efficiency and strengthen internal controls.

Projects

Pravah [🔗 Live Demo](#)

Designed an analytics platform that transforms species-specific environmental data into actionable insights, enabling stakeholders to identify risk patterns, prioritize conservation efforts, and support evidence-based decision-making.

Swasthlekha [🔗 Live Demo](#)

Developed a digital healthcare documentation platform aimed at improving record accessibility, reducing administrative inefficiencies, and supporting standardized healthcare workflows aligned with national digital health initiatives.

Positions of Responsibility

Vice-Chair, DCE ACM Student Chapter

Jul 2023 – Jul 2024

- Directed a 25-member executive team to organize hackathons, technical workshops, and innovation programs.
- Managed stakeholder coordination, planning, and execution of large-scale events fostering technical skill development.
- Conducted structured training sessions on Python, Data Science, Generative AI, and Machine Learning.

Founding Member, AIII Club at DCE

Mar 2023 – Jun 2024

- Established the club and led initiatives including workshops and events to promote innovation, skill-building, and engagement among students.

Volunteer, National Service Scheme (NSS)

Oct 2022 – Jun 2025

- Organized and participated in community service initiatives, including plantation drives, cleanliness campaigns, blood donation camps, and educational support for underprivileged children.

Publications

Impact of Bridging the Gap Between Artificial Intelligence and Nanomedicine in Healthcare [\[Full Paper\]](#)

Authored research on AI-driven diagnostic accuracy and advanced drug delivery systems; published in Next Nanotechnology and indexed on ScienceDirect.

Artificial Intelligence and Nanobots [\[Full Paper\]](#)

Published research on AI-enhanced surgical nanobots in IJACEN and presented findings at ICSET 2023 in Malacca, Malaysia.

Key Achievements

- Finalist – Eco-Innovators Challenge, Global Learning Council
- Finalist – IIT Madras i2i Challenge; awarded Rs 50,000 for prototype development
- Participated in the 5-Day Innovation, Design & Entrepreneurship (IDE) Bootcamp, organised by AICTE & Ministry of Education's Innovation Cell (MIC) at IIT Jammu

EDUCATION

Dronacharya College of Engineering, Gurugram

2022 – 2026

B.Tech in Computer Science Engineering (AI & ML)

78.50%

Red Roses Public School, New Delhi

2022

Senior Secondary (CBSE - PCMB)

85.80%
